# ADVANCED BI♥FUELS

18-20 SEPTEMBER 2018, GOTHENBURG, SWEDEN

WELCOME TO THE INTERNATIONAL  
ADVANCED BIOFUELS CONFERENCE

NEW TECHNOLOGIES, NEW PRODUCTION PLANTS  
– BIOFUELS ARE READY FOR TAKE-OFF!

Conference Centre Wallenberg, Gothenburg, Sweden

ORGANISED BY: **SEBIO**

# WELCOME TO THE ADVANCED BIOFUELS CONFERENCE IN GOTHENBURG!

During 18–20 September, 2018, the Swedish Bioenergy Association (SVEBIO) is organising its 4<sup>th</sup> Advanced Biofuels Conference, in Gothenburg. The conference starts with study visits and is followed by two conference days that cover the aviation, maritime and land transport sectors.

There is plenty to see, hear and discuss. The Nordics are a hotbed of activity when it comes to advancing and implementing biofuels. Sweden and Finland reached already in 2015 more than two times the target of European Union (EU) 2020 renewable energy in transportation. HVO is a leading advanced biofuel in terms of commercial production capacity with Nordic companies behind the lion's share of global production. Along with HVO100, Swedish motorists and fleet operators have already today a selection of compressed biogas, E85, ED95, B100, as well as conventional fuels with high blends of bio-components at filling stations.

This conference highlights the latest projects and plants with leading international experts presenting an update on biofuel technologies. The Advanced Biofuels Conference is intended for those who are interested in creating a sustainable transport sector. Speakers and delegates are policy makers and politicians, leading scientists, researchers, engineers, as well as executives and representatives from companies and organisations.

Welcome to contact: [Tomas Ekbom](mailto:tomas.ekbom@svebio.se),  
[tomas.ekbom@svebio.se](mailto:tomas.ekbom@svebio.se),  
+46-8-441 70 83, for enquiries.

# WHAT TO EXPECT

The conference offers three days with +150 decision-making attendees from the entire value chain: feedstock to consumer brands via policy, technology, finance and innovation. It's a one-stop-shop to meet new partners from across the entire value chain, at one time in one place.

Featured speakers at the conference include:

- **Carl Nyberg**, Vice President of Neste
- **Greg Dolan**, CEO of Methanol Institute
- **Mika Aho**, Director for Public Affairs & Communications at St1
- **Kjetil Böhn**, CEO of QuantaFuels
- **Geir Baalsrud Ingeborgrud**, Managing Director of Eco-1
- **Philippe Marlière**, Co-founder and Board Director of Global Bioenergies
- **Alan Del Paggio**, Vice President of Upstream & Renewables at CRI / Shell Global Solutions

The Advanced Biofuels Conference is the leading biofuels conference in the Nordics for biofuels with 30 speakers from major biofuel producers, and the most innovative companies in the bio-economy.

Conference sessions include political strategies & visions with discussions on current and future policy for biofuels, market and industry perspectives on sustainable biofuels, latest technology breakthroughs from leading companies as well as the global resources and trends in bioenergy and biofuels.

## PRE-CONFERENCE STUDY VISITS 18 SEPTEMBER

### – ST1 REFINERY & SÖDRA CELL VÄRÖ

Our first stop will preliminary be St1 refinery in Gothenburg, a pioneer in advanced biofuels producing ethanol from different waste materials with several plants built in Finland and Sweden. Etanolix® plants producing ethanol from food industry waste and today Cellunolix® plant producing cellulosic ethanol from sawdust.

St1 refinery in Gothenburg; Etanolix® unit.

Södra Cell Värö, combinate with pulp mill and saw mill.

The second stop will preliminary be Södra Cell Värö biorefinery, which is the biggest sawmill and the most modern pulp mill in Sweden. Södra has a broad portfolio of biofuel projects and investments, from biomethanol plant under construction to demonstration of large-scale biofuels production with Statkraft in Norway and commercial operation at SunPine with tall diesel production and new investment in a second plant.

THE PRE-CONFERENCE STUDY VISITS ARE FOR CONFERENCE DELEGATES ONLY. LIMITED PLACES AND SUBJECT TO CHANGE DUE TO AVAILABILITY, REGISTRATION IS REQUIRED.

# WHEN AND WHERE?

**Conference:** 19–20 September, 2018, Gothenburg, Sweden

**Pre-conference study visits:** 18 September, 2018 (Open for conference delegates only)

**Conference Gala Dinner:** 19 September, 2018

**Venue:** Conference Centre Wallenberg, Medicinaregatan 20A, Gothenburg, Sweden

**Programme and registration:** Online at [AdvancedBiofuelsConference.org](http://AdvancedBiofuelsConference.org)

A discount fee is available for full members of SVEBIO, AEBIOM and WBA.

Please contact us for any questions [abc@svebio.se](mailto:abc@svebio.se)

## BOOK YOUR ACCOMMODATION BEFORE 17 AUGUST 2018!

There is a limited number of rooms reserved for conference delegates. Please contact the hotel for your reservation and use the code:

**SVE180918** for the best available price.

Elite Park Avenue,

Kungsporsavenyn 36-38, Gothenburg, Sweden

[www.elite.se](http://www.elite.se) or phone +46 31 727 1000

## EXPLORE GOTHENBURG

Gothenburg is a beautiful city. We encourage conference participants to enjoy Gothenburg, taking the opportunity to look at the city attractions. Read more in the Official visitors guide, [goteborg.com](http://goteborg.com)
